T-BONE

design Studio RH+ Björn Andresson

T-Bone is the idea behind a design project that aims to enhance the bone structure of the seatings in order to highlight this decorative and distinctive element. As the bones support the body so does the wood structure of our armchair which in a minimal and iconic design becomes the stylistic feature of the project. The structure is not hidden inside the upholstery but is exhibited externally in order to increase the perceived value of the product. The same distinctive element can be found in all the variants of the collection armchair, lounge and sofa.

OZZY

design Alberto Vidale - Neferstudio

With this new collection Accento has meant to add to the range of products already available, a solution designed specifically for the contract market. It is, in fact, a collection with pieces designed to be combined with each other through a module system. Made in two different dimensions, they can be placed in large spaces, such as airports, and even in very small waiting rooms.

BLUE EYES

design Werther Toffoloni

Is a collection featuring a solid and proportionate base structure, that the slender and open back shape of the body in multilayer wood, seems to project upwards. An important look is given by the wooden armrest that enriches the style and the scenic presence of the piece.

SURF

design Gian Luca Tonelli / Davide Carlesi

Friendly, sunny and rich in curves, encloses a formal shape that makes it light and contemporary.

The result is a figure simple but with a distinct, iconic character. A kind of wraparound seating suitable for the contract and home environments, adaptable to both youthful and classic styles.

ALLURE

design Alessio Principi

"Allure" is a collection that immediately stands out for the elegance of its shapes, the regularity of its curves and, in the case of the armchair, the sinuosity of the enveloping armrests. Perfect for restaurants, it gives class and sophistication to the surroundings in which it is placed.
